

Call for Exhibitors

GOMACTech-10

Microelectronics for Net Enabled and Cyber Transformational Technologies

March 22-25, 2010

Peppermill Resort Spa Casino, Reno, NV USA

<http://www.gomactech.net>

Over the past decade, the concept of net-enabled operations has become a cornerstone for our national defense posture. The underlying assumption of this vision is the availability of robust, reliable, secure information and communications infrastructures. As government and civilian activities develop net enabled technologies, the national defense communications infrastructure becomes an increasingly attractive target for adversary nation states in both covert and overt operations. The demand for microelectronics is imperative for developing trustworthy, high bandwidth, and high speed nano scaled-electronics to realize the vision.

The Government Microcircuit Applications & Critical Technology Conference (GOMACTech) is the premier forum for the dissemination of information of Government-funded microcircuit research-and-development programs and provides the opportunity for presenting leading-edge research and development as it applies

As in the past, GOMACTech-10 will feature Government Applications and Vision Sessions, and selected Research and Development Program Reviews. These sessions offer the attendee insight into Government views of critical technical challenges, and provide an opportunity for key Government organizations to announce major technology and system initiatives.

Exhibit space will be rented at \$2100 for each 8 ft. deep by 10 ft. wide booth

Every effort is being made to assure attendees' participation in the Exhibition. An afternoon break on Tuesday and morning and afternoon breaks on Wednesday will be held in an area inside the Exhibit Hall. Technical sessions will be held on Tuesday through Thursday from 8:30 am to 12:00 pm and from 2:00 pm to 5:00 pm.

EXHIBIT HOURS

Tuesday, March 23, 2010 **12 noon – 6 pm**
Wednesday, March 24, 2010 **9 am – 4 pm**

Participating Government Organization

Department of Defense (Army, Navy, Air Force)
National Aeronautics and Space Administration
Department of Commerce (National Institute of Standards and Technology)
National Security Agency
Department of Energy (Sandia National Laboratories)
Defense Threat Reduction Agency

Defense Advanced Research Projects Agency
Advisory Group on Electron Devices
Central Intelligence Agency
National Reconnaissance Office
Defense Logistics Agency
Department of Health and Human Services
