

GUIDELINES FOR GOMACTech-21 POSTERS

The poster session is intended to provide presentations judged to be best suited to this more interactive format. The success of a poster session is attributed not only to the high quality of the papers selected but also to the authors' adherence to the following guidelines for effective presentation in poster format.

All poster presenters have received a link to upload their poster within the virtual conference platform. Please contact Samantha Tola (stola@pcm411.com) if you have not received your login details.

Once logged in, follow the prompts to complete the required tasks, including uploading your presentation as a PDF file within the Cadmium Harvester platform. You also have the opportunity to complete an audio recording within Cadmium to give a brief 5-8 minute summary of your poster.

Poster Presentation Requirements:

- For publishing purposes, the poster upload must be a PDF file at highest resolution possible.
- The aspect ratio (ratio of width to height) should ideally be set to '16:9'.
- The complete poster is limited to one slide only. That means one single page for your PDF file.
- Fonts should be sans-serif (e.g., Arial, Calibri, etc.)
- Font size should not be smaller than 6pt.

Please contact us if you need any assistance uploading your presentation.

The deadline for submitting your presentation is **March 19, 2021**.

All presentations must be approved for Public Release (Distro-A) in order to be published.

NOTE ON PUBLIC RELEASE APPROVAL: Some organizations require up to a 45 day approval process for public release material. Please check with your approving organization to ensure that you have sufficient time to develop and record the script for your oral presentation or poster in time to submit these by the 19 March deadline.
