

# Call for Exhibitors

## GOMACTech-07

Countering Terror with Transitional Technologies

March 19-22, 2007

Disney's Coronado Springs Resort, Lake Buena Vista, FL

<http://www.gomactech.net>

Systems that can gather and analyze data as well as make decisions autonomously in harsh unfriendly environments require a marriage of high performance information processing technologies with highly capable sensor technologies. Such "Intelligent Technologies" are a key element for the successful development of future civilian and military systems. GOMACTech-07 addresses the technologies and infrastructure necessary to achieve this dramatic advance in functional capabilities and highlights the current state-of-the-art in intelligent systems.

GOMACTech is the premier forum for reporting on Government-funded microcircuit research and other research efforts that focus on the technology needs of Government systems. It is an unclassified export-controlled event. All registrants must provide proof of U.S. citizenship or permanent resident status and sign a non-disclosure statement prior to being permitted entry into the conference.

As in the past, GOMACTech-07 will feature Government Applications and Vision Sessions, and selected Research and Development Program Reviews. These sessions offer the attendee insight into Government views of critical technical challenges, and provide an opportunity for key Government organizations to announce major technology and system initiatives.

**Exhibit space will be rented at \$2100 for each 8 ft. deep by 10 ft. wide booth**

Every effort is being made to assure attendees' participation in the Exhibition. An afternoon break on Tuesday and morning and afternoon breaks on Wednesday will be held in an area inside the Exhibit Hall. Technical sessions will be held on Tuesday through Thursday from 8:30 am to 12:00 pm and from 2:00 pm to 5:00 pm.

### EXHIBIT HOURS

<b>Tuesday, March 21, 2007</b>	<b>12 noon – 6 pm</b>
<b>Wednesday, March 22, 2007</b>	<b>9 am – 4 pm</b>
