

Dr. Chris Coen is a Senior Research Engineer in the Advanced Concepts Lab at the Georgia Tech Research Institute (GTRI), where he has been since 2017. He received the B.S., M.S., and Ph.D. degrees in Electrical Engineering from Georgia Tech in 2009, 2012, and 2017. His current areas of research at GTRI include custom microwave and millimeter-wave integrated circuits, analog RF signal processors, adaptive array antennas, and high-reliability electronic sub-systems for terrestrial, airborne, and spaceborne applications. He has co-authored 32 journal and conference papers to date.
